

# Romeo Bernal Alcelay

BSc in Computer Engineering

romeo.bernal@outlook.com | (+34) 699 96 76 09 | Madrid, Spain | [linkedin.com/in/romeo-bernal-alcelay-544021201](https://www.linkedin.com/in/romeo-bernal-alcelay-544021201)

## SKILLS

---

|                  |                                                             |
|------------------|-------------------------------------------------------------|
| Languages:       | Python, Java, C, C++, JavaScript, HTML, CSS, Scala, Haskell |
| Data & Big Data: | Python (Pandas, NumPy), Power BI                            |
| Cloud & DevOps:  | Azure, Git, GitHub, Linux                                   |
| Databases:       | PostgreSQL, MySQL, MongoDB                                  |
| Practices:       | Agile, Scrum, ETL/ELT, Data Analysis, Process Automation    |

## EXPERIENCE

---

|                                       |                    |
|---------------------------------------|--------------------|
| Accenture                             | Madrid, Spain      |
| <i>Engineering Services Associate</i> | Sep 2025 – Present |

- *Endesa*: Designed and deployed an end to end ETL pipeline monitoring public EV charging stations, ingestion, cleaning and transformation of raw data in with automated weekly orchestration and Power BI as serving layer.
- Translate business requirements into technical solutions within an Agile/Scrum workflow.

|               |                     |
|---------------|---------------------|
| Accenture     | Madrid, Spain       |
| <i>Intern</i> | Mar 2025 – Sep 2025 |

- *Airbus*: Built a human activity management tool used to coordinate and track Airbus-Accenture service activities.
- Supported multiple projects across the team, contributing to a range of technical and analytical tasks.
- Developed a Python tool to visualize and explore a database, making the data easier to query and interpret.

## PROJECTS

---

|                                               |                                  |
|-----------------------------------------------|----------------------------------|
| Minimum-Time Search in Uncertain Environments | <i>Bachelor's Thesis – 10/10</i> |
|-----------------------------------------------|----------------------------------|

Research and implementation of bio-inspired optimization algorithms for minimum-time search strategies in environments with incomplete information. Awarded maximum distinction.

## EDUCATION

---

|                                       |                          |
|---------------------------------------|--------------------------|
| University of Alcalá de Henares (UAH) | Alcalá de Henares, Spain |
| <i>BSc in Computer Engineering</i>    | 2021 – 2025              |

## LANGUAGES

---

Spanish: Native • English: C1 – Professional proficiency
